

THEME: FAITH

contemporary song service

Note to Pastors: In this service format, the sermon is divided into three devotions. Each is followed by a song which continues to teach and illustrate that devotion's message. The rest of the service roughly follows a traditional Lutheran format. The music is a blend of 2 hymns, 2 songs of praise, and 2 solos. There is no sung liturgy and Wendysue accompanies all songs, giving the organist or music leader the day off. Optional: the Lord's Supper can be inserted after devotion 1.
